

## Who we are

Istituto Delta is a Spin off company of the University of Ferrara, set up thanks to the initiative of a group of researchers of the Biology Department.

### Our skills

The corporate team is inter-disciplinary, made up by Biologists, Naturalists, Agronomists, and Geologists. The high professional level is ensured by the roots in the laboratories of the University and by non-stop updating both of the founders and of the internal staff.

## Our activities

After a long-lasting activity, Istituto Delta offers consulting services of the highest quality. Istituto Delta works in compliance with the Quality Management Standards ISO 9001:2000, as certified by TÜV. The EU legislation and the market needs are more and more directed towards environmental-friendly productions. The scientific knowledge in the different fields makes of Istituto Delta a company at the forefront, always ready to supply new solutions, which can meet the most demanding requests.

## Our services

The company supplies consulting and research services in the field of the

- Applied research
